CROSS WIRELESS

Cross Wireless, Inc. STATEMENT OF COMPLIANCE WITH CPNI 47 U.S.C. §222, and 47 C.F.R. § 64.2001- 64.2009

Cross Wireless, Inc. (Cross W) has established operating procedures that ensure compliance with the Federal Communication Commission regulations regarding the protection of consumer proprietary network information (CPNI).

- Cross W has implemented internal procedures to educate and train employees about CPNI and the disclosure of CPNI. Cross W has established disciplinary procedures for any employee that wrongfully discloses CPNI. We also ensure that our vendors that have access to our customers CPNI are aware of the CPNI rules.
- Cross W does not use CPNI without customer notification as set forth by the FCC in 47 U.S.C. §222, and 47 C.F.R. § 64.2001- 64.2009. Cross W provides either an opt-in notice or an opt-out notice when appropriate and maintains the customers choice. Therefore, the customers approval status can be determined prior to use of CPNI.
- Cross W maintains records of their own and their affiliates' sales and marketing campaigns that use their customers' CPNI. Also, Cross W maintains records everytime third parties are allowed access to CPNI. These records include a description of each campaign, the specific CPNI that was used, and what products and services were offered. These records are retained for a period of at least one year.
- Cross W requires sales personnel to obtain supervisor approval of all outbound marketing requests for customer approval and maintains records of compliance for at least one year.
- Cross W will provide written notice within five business days to the FCC any instance where the opt-out methods do not work properly, to such a degree that the customers inability to opt-out is more than an anomaly.
